

The state of Minnesota has declared that for the next two weeks we should quarantine ourselves to help fight the spread of Corvid-19. This means we should limit contact with other people to ensure we do not get ourselves or others sick. But this also means that families in need may struggle to connect to the internet, have phone issues, or need help feeding their families. Listed are companies who are helping with internet, phone, and data connections, and restaurants who are providing free meals. Share this with family and friends who may need some extra help or know someone who does. And remember, wash your hands!

**Internet Resources:** If you, your family, or someone you know needs free wifi here are a handful of companies who are providing that to students

- Spectrum Broadband
- Xfinity
- Comcast is providing free wi-fi for the next 60 days as well as lifting data caps
- AT&T and Charter is providing free wi-fi for the next 60 days for all students through college age
- Verizon is pausing all late fees and disconnections
- T-Mobile is giving unlimited smartphone data for current users
- Sprint is also giving unlimited smartphone data for current users
